

We provide a commercial waste and recycling service across the Lancaster district. Commercial waste is subject to specific disposal requirements for which a charge applies.

Service provided:

- Six day collection where viable
- Evening collection services available in Lancaster city centre only
- Flexible billing arrangements
- No charge is levied for the 'duty of care' documentation
- Full range of Eurobin containers at very competitive rates
- Friendly, efficient staff who deal with all aspects of trade refuse

Eurobin features and benefits

A Eurobin container means rubbish does not need to be left on the floor which creates a better impression for your customers. Most containers have a close fitting hinged lid that can be securely locked to keep smells in and vermin and arsonists out. Containers are easy to manoeuvre and load by hand - the containers have a low loading height and a drainage plug to enable ease of cleaning.

Trade waste and recycling sacks and labels

Trade sacks and labels are available in multiples of 50 for smaller businesses or those with limited space. Please place an order for delivery by telephoning 01524 582415/ 582416. Alternatively email tradewaste@lancaster.co.uk your requirements. A delivery charge applies where an order of only 50 of either type is made. For orders of over 50 there is no delivery charge

Duty of Care

All businesses have an obligation to ensure that all reasonable steps are taken to store and dispose of waste, including using a waste collector who is a 'registered carrier' of waste. Lancaster City Council's Environmental Services is a licensed waste carrier and will take care of your needs efficiently.

If you require any further information or would like a free quotation based on your requirements, please contact us on: 01524 582415 or 582416, or email tradewaste@lancaster.gov.uk

Eurobin specifications

Please note capacity in litres is exact. The other specifications are approximate in centimetres as all manufacturers have different dimensions:

	Capacity in litres	Height	Width	Depth	Safe lifting weight (kg)
	240	96	48	55	90
	360	101	62	85	150
	660	133	126	77	264
	770	137	126	79	305
	1100	139	137	107	440
	1280	147	138	108	440

Please note bins should not be over filled and lids must shut securely, all waste must be safely enclosed in the bin. Always ensure the bin is accessible on collection day and free from obstruction. Businesses have a legal responsibility called a 'Duty of Care' to ensure that their waste is securely stored and disposed of legally. The safest way to achieve this is by using a registered waste carrier such as Lancaster City Council.

For further information or a quotation please telephone 01524 582415 or 582416, or email tradewaste@lancaster.gov.uk
