

# Placemaking with Young Adults

*Share your stories and experiences of sustainable ways of living.*

## Who are we?

We are researchers from Lancaster University, Royal Holloway University London and University of Lincoln working together with young adults and Lancaster City Council. Together we want to find out how Lancaster District area could become the ideal place where you would choose to live.

## What are we going to be doing?

- One workshop on 28th May 2022 at Halton Mill.
- Come and share your views of sustainable ways of living and help develop a collective manifesto to help inform placemaking and sustainability in Lancaster District.
- We want to know: what sustainable ways of living do you envision? What type of life style and community would you like to belong to, and would make you happy?

*Join us for a full day of enjoyable activities and a free lunch where we will share and craft our ideal future.*

**Venue:**  
**Halton Mill, Mill Ln, LA2 6ND**
