Subject: Re: Scotforth Rural Neighbourhood Development Plan (SRNP) - Examination

Further to my requests below may I ask Scotforth Parish Council:

- what is the source of the content of Appendix 3 on improving accessibility and how does it relate to the report "Promoting Accessibility, Health and Wellbeing"? Policy SR9 says the content of Appendix 3 is "*set out*" in this document but it does not appear?
- whether all the proposals on Map 5 for new connections are intended also to appear on Map 6 as part of the vision?
- to review both Maps to address inconsistencies in the information presented - an example being Map 5 shows a connection near Langthwaite Houses as a "Signpost 'pedestrians in roadway'" and Map 6 shows it as "Create footpath in verge"
- to consider whether it would be possible to combine Maps 5 and 6 to show both existing routes and improvements which also include the proposed new connections

Thanks

Tony
