Subject: RE: Scotforth Rural Neighbourhood Development Plan (SRNP) - Examination

Good Morning Tony,

In relation to the two outstanding issues, firstly map 7, I have spoken with Scotforth Parish Council, and we are going to assist with revising map 7. I was just wondering when you would like this updated mapping by?

Then in terms of the Promoting Accessibility, Health and Wellbeing Part 2 report, when the submission documents were sent through to us, we extracted the evidence base files from the links within the submitted (SRNP) Neighbourhood Development Plan document itself. There isn't a link to Part 2 and so this is why it's missing from our website, but like you say it has been published on the Scotforth Parish Council website. We have also now added it onto our website. I agree with what you have said and that additional public consultation on this does not need to be undertaken. The Part 2 report is clearly referred to within the SRNP and was available on the Parish Council website. Separate links to both the Part 1 and Part 2 reports could be inserted into the final version of the SRNP.

Kind Regards,

Eleanor
